draft - para 3 of covering letter to the Ang'n Primates

as discussed and agreed between
Fr John Ware and CH

Omit first sentence to).

In our discussions subsequent to the completion of the Report the SPCU has stressed that the Report must be read as a whole, and in particular that para 6 should not be separated from paras 2 and 3. The Anglican understanding also is that the document be read as a single whole, on the light of the Terms of Ref given to the Consultation: "To what extent.....sacramental fellowship". It will be seen that an investigation of the grounds for or against the ordination of women to the priesthood is not the subject of the Report.
